DELEGATES FEEDBACK

“Good Topics Excellent Organization. More Hands on Workshops”

“More Organised Than Before and Friendly, Keep Up the Good Work”

“It Was Great To Learn From Experts In Critical Care, And To Win The Best Poster Award From Group A Posters. Allow More Interactive Case Scenarios During The Workshop. ENLS Workshop Was More In Lecturing Than Interactive Sessions.”

“Avoid Hot Topics Last Day Because As We Come From Out Side Country We Are Committed With Flights Early.”

ENA Critical Care Practice Section Workshop:
Through the launching of the Emirates Nursing Association, Critical Care Section, the society was able to present itself to the critical care community UAE.

The Emirates Nursing Association, Critical Care Section was established to link critical care nurses throughout the UAE, to strengthen the influence and contribution of critical care nurses to healthcare within the UAE and to be a collective voice and advocate for critical care nurses and patients at a national level.

Our Intentions are:
• To create a forum for networking to provide support to critical care nurses
• To represent critical care nurses and critical care nursing at a national level
• To improve the standard of care provided to critically ill patients and their families within the UAE
• To advance the art and science of critically care nursing in the UAE
• To promote cooperation, collaboration and support for critical care nurses
• To improve the recognition of critical care nursing throughout the UAE
• To maintain and improve effective cooperation between all healthcare professionals, institutions, agencies and charities who have a professional interest in the care of critically ill patients.
• To participate in establishing standards for education, practice and management of critical care nursing
• To foster and support research initiatives that advance critical care nursing and patient/family care
• To encourage and enhance education programmes in critical care
• To provide conferences, information and continuing education for critical care nurses
• To participate with health care authorities and key opinion leaders in policy development in regard to critical care practice

The group is in the process of establishing regional “Chapters” throughout the UAE to better support critical care nurses throughout the UAE.
**Emirates Sepsis Forum - Awareness Matters:**

Sepsis has become one of the burden on the health care system worldwide. To date; it is considered the leading cause of death compared to other morbidities. Not only that, but also survivors may suffer from physical and psychological sequelae, which mandates special rehabilitation programs.

Therefore, education required to prevent, diagnose and treat sepsis early. Collaborative teamwork initiated to establish the awareness campaign of sepsis international guidelines and educate healthcare providers to:

- increase awareness of sepsis definition
- highlight Diagnostic challenges
- initiate high standard management for sepsis by health care providers

The Emirates Intensive Care Society and the Global Sepsis Alliance support the UAE Sepsis Forum to make the awareness goals spread in Emirates. From April 2016, our campaign will extend to have public awareness spreading by participating people their social activities.

The 12th Emirates Critical Care Conference was another point to start cooperation with the World Sepsis Day organizers by addressing the global challenges of sepsis in different levels and had a consensus to support the SEPSIS awareness more in the social media and overcome the difficulties encountered by healthcare providers by proper education to patient and families as well. We also invited sepsis survivors to speak about their experiences after recovery. They all agreed that sepsis prevention is very important and people should know more about how to recognize it earlier to avoid its complications.

The UAE Sepsis Forum is very happy to extend cooperation with hospitals in Emirates to make the coming World Sepsis Day very successful.
